handle

object

exception< type >

```
graph BT; exception[exception< type >] --> object[object]; object --> handle[handle]; handle --> detail[detail::object_api< handle >];
```

The diagram illustrates a vertical flow of information or data. It consists of four rectangular boxes arranged vertically, connected by upward-pointing blue arrows. The bottom box is shaded gray and contains the text 'exception< type >'. The next box up is white with a black border and contains 'object'. The third box is also white with a black border and contains 'handle'. The top box is white with a gray border and contains 'detail::object_api' followed by '< handle >' on a new line. The arrows indicate a flow from the bottom box to the top box.
